#### **Financial Guideline**

We at Tiger Family Dental are committed to providing you with the best possible care and we are pleased to discuss our professional fees with you at any time. Your clear understanding of our Financial Policy is important to our professional relationship. Please ask if you have any questions about our fees, Financial Guidelines, or your responsibility.

#### Insurance

Tiger Family Dental bills insurance as a courtesy to our patients. The patients portion of dental service(s) is estimated and due at time of service. In addition, certain insurance companies have annual limitations for the amount of dental services that can be reimbursed within each plan year. If you or your family exceed these annual limitations in any plan year, you will be responsible for the full amount. Tiger Family Dental will help you with any insurance questions that you may have.

The claims we submit to insurance companies indicate that you have assigned those benefits to Tiger Family Dental. However, if you are paid by the insurance company instead of Tiger Family Dental, you then become responsible for the total balance and payment would be expected immediately.

You as the patient are always responsible for any charges that are not covered by your insurance company.

All payments returned due to non-sufficient funds will be subject to NSF of \$35.

#### Cancellations

We want to create an environment where there is a mutual respect between our patients and our team to honor the time and commitment on both parties. Unfortunately, when one patient cancels without giving enough notice, they prevent another patient from being seen for needed treatment. We ask that you please give us at least 24 hours notice to any changes or cancellations to your appointment. If prior notice is not given there is a \$45 fee associated with the canceled or missed appointment.

Thank you for your understanding and agreement to our financial guidelines. Please let us know if you have any questions or concerns.

# The Epworth Sleepiness Scale

The Epworth Sleepiness scale is widely used in the field of sleep medicine as a subjective measure of a patient's sleepiness. The test is a list of eight situations in which you rate your tendency to become sleepy on a scale of 0, no chance of dozing, to 3, high chance of dozing. When you finish the test, add up the values of your responses. Your total score is based on a scale of 0 to 24. The scale estimates whether you are experiencing excessive sleepiness that possibly requires medical attention. How sleepy are you? How likely are you to doze off or fall asleep in the following situations? You should rate your chances of dozing off, not just feeling tired. Even if you have not done some of these things recently try to determine how they would have affected you. For each situation, decide whether or not you would have:

- No chance of dozing =0
- Slight chance of dozing =1
- Moderate chance of dozing =2
- High chance of dozing =3

Write down the number corresponding to your choice in the right-hand column. Total your score below.

Sitting and reading	
Watching TV	
Sitting inactive in a public place (e.g., a theater or a meeting)	
As a passenger in a car for an hour without a break	
Lying down to rest in the afternoon when circumstances permit	
Sitting and talking to someone	
Sitting quietly after a lunch without alcohol	
In a car, while stopped for a few minutes in traffic	

**Total Score:** 

#### Interpretation:

0-7: It is unlikely that you are abnormally sleepy

8-9: You have an average amount of daytime sleepiness

10-15: You may be excessively sleepy depending on the situation. You may want to consider seeking medical attention

16-24: You are excessively sleepy and should consider seeking medical attention
